

9700 Series Surface Mounted Electric Strike

*Works with Corbin Russwin
SecureBolt® and ASSA
ABLOY ACCENTRA™
SquareBolt® exit devices*

The stylish windstorm-rated and fire-rated, squarebolt solution.

The 9700 Series is a heavy duty, surface mounted electric strike designed to accommodate Corbin Russwin® Securebolt® and ASSA ABLOY ACCENTRA™ Squarebolt® exit devices. All components are completely encased within its 3/4" thick stainless steel housing, so no cutting on the frame is required for installation. It is field selectable for fail secure and fail safe operation, and for 12 or 24 VDC.

The 9700 is designed with the strength and durability required to exceed the severe forces of ANSI Windstorm testing. This unique electric strike also complies with NFPA 80-07 guidelines for retrofit into fire rated frames.
