

ES100 Series Wireless Integrated Electric Strike

The most versatile way to retrofit an opening with real-time online access control

The ES100 Series Wireless Electric Strikes make online access control simple and affordable.

For the first time, the industry leading features of the 1500 and 1600 series electric strikes have been paired with Aperio® wireless technology to provide even more affordable access control retrofit options for remote control and monitoring. Available in both Convenient (non-monitored) and Secure (monitored) model options. Compatible with most models of cylindrical and mortise latchbolt locksets, including 1" deadbolts. Simply put, the ES100 Series Electric Strike is the affordable, universal retrofit solution that offers flexible configuration options and dynamic adjustability without the need to run wires.

Electrical

- Estimated Battery Life: 45,000 Cycles*
- (2) "AA" lithium batteries (included)
 - » AA LR6 (1.5 V) Lithium Ion Batteries required. Use of other types of batteries, such as alkaline, will significantly decrease battery life.
- microUSB port for emergency power

*All battery life claims are approximate and based on a set configuration profile. Battery performance is based on pre-defined system settings such as battery chemistry and battery model used, credential presentation settings (LED/buzzer), UHF polling period, UHF status intervals, and operations per day. Actual battery performance will vary and depends on the factors above.
